The logo for the International Water Resources Association (IWRA) is centered in the background. It consists of a stylized globe with a grid of latitude and longitude lines, overlaid with a large, light blue water drop shape. Below the globe, the acronym 'IWRA' is written in a bold, sans-serif font.

## BECOME AN IWRA MEMBER !

IWRA is an international network of multidisciplinary experts on water resources. We are a non-profit, non-governmental, educational organisation established in 1971. IWRA provides a global, knowledge based forum for bridging disciplines and geographies by connecting professionals, students, individuals, corporations and institutions who are concerned with the sustainable use of the world's water resources.

# 6-Membership Strategy & Working Groups (1)

*Callum Clench, Executive Director, for Gary Jones, Chair of the Membership Committee*

- Our membership elects and forms our Executive Board, and is a goldmine of intellectual and practical knowledge on the management of water resources.
- Nevertheless, we need to do more to recruit and retain new members, and to provide meaningful participation opportunities for existing members.
- There remains a real opportunity for IWRA to engage better with its members, increase its membership and strengthen its position as a highly-regarded international network of experts in water resources
- We must reach out to younger people entering the sector, and to new geographic regions

# 6-Membership Strategy & Working Groups (2)

## New Membership Strategy:

- Main objectives
  - 1- Strengthen IWRA Membership
  - 2- Strengthen and extend IWRA regional chapters
  - 3- Enhance member participation with IWRA activities

# 6-Membership Strategy & Working Groups (3)

- *Nick Schofield Chair of the Oceania Chapter*

Relaunch of the Oceania Chapter and signature of the MoU

- **Youth Activities: Open discussion about a Youth Chapter**
- **Open discussion about a Latin America Chapter**

# 7-Any other issue

*Thank you for coming!*
